

Unituff OGS

INFORMATION

Item name: Unituff OGS

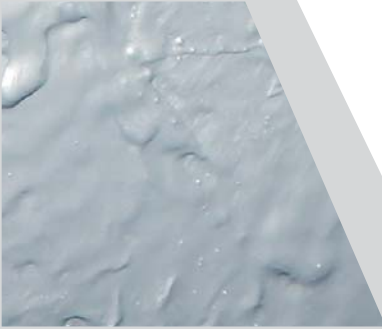

Item code: 04-UOGS/4 4L Tin
04-UOGS/1G.UT 1 Gallon Tin (US)

Description:

- Unituff OGS Brush-on/Roll-on Strippable Protective Coating

Specifications:

- A thick silver adhesive coating that creates a protective membrane when dried. It forms a tough coating that easily peels away when the protection is no longer required
- **Specifications:** Unituff OGS is a peelable, plasticised, permanently flexible polyvinyl resin solution coating. It is a heavy duty coating designed to provide long term protection to a variety of substrates by locking out liquids, dust, gas and vapours. Unituff OGS features an extremely low halogen content making it suitable for the temporary protection of stainless steel. When used as stand alone peelable protective coating in normal atmospheric exposure Unituff OGS will protect the substrate for a minimum of 6 months. When used in conjunction with the complete 4VAP system Unituff OGS will protect the substrate for many years and will be readily peelable when required

- **Use:** Compatible with Stainless Steel, Brass and other Alloys
- **Typical Applications:** Protection of equipment during transport and storage. "Mothballing". Military Equipment Tooling, Mining Equipment, Heavy industrial machinery, Castings, Architectural componentry, Stainless Steel

- Be aware the liquid is highly flammable, so take care with use
- It is advised to use in small quantities due to the fast drying properties of this product

- **Benefits:** Peelable
Durable
Fast drying
Non-seepage
prevents rust creep
Non-residue

APPLICATIONS
