

Unituff Thinners 5

INFORMATION

Item name: Unituff Thinners 5

Item code: 04-UT5/4

Description:

- Unituff Thinners 5 (4L/tin)

Specifications:

- Keeps the paint wetter for a few minutes longer allowing more working time
- Can be necessary in hot, dry or windy conditions where the coating may “tack off” before the operator has a chance to achieve a uniform/even finish
- Can be used to clean paint brushes
- Thinners would not be necessary in the majority of environments where the temperature is between 10-45 degrees celcius
- **Ratio:** 1L of thinners per 10L of Unituff Coatings is suitable for most environments (start at 5% and increase to 10% if necessary to achieve the workability they are after)

APPLICATIONS
